Dear Parent/Guardian: Your child's health is important to us. To better understand your child's healthcare needs, the Montefiore School Health Program endeavors to conduct an annual *brief* health assessment on every child in the school. This includes measurement of height, weight and blood pressure, review of a child's immunization record and documentation of a child's medical home. This assessment does not replace the annual *comprehensive* Health Assessment done by your child's Primary Care Provider. You may also request a *comprehensive* Health Assessment at the school-based health center. The Montefiore School Health Program utilizes the same electronic health record used at Montefiore Medical Center, allowing us to communicate with any Montefiore provider. To help the School Health Team be informed of your child's health needs for ongoing care and in case of emergency, please answer the following questions.
