Hello Middle School Families of PS/MS 95,

I hope you and your families are all well during this time of uncertainty. I wanted to take the time to give you some updates and information regarding our after-school program.

MMCC has been setting up remote systems to bring socialization and enrichment to students during after school hours. We have developed a virtual enrichment programs such as music, art, dance, drama, etc. that kids enjoy participating in. This week we turned to YouTube to host some of these classes and allow kids access at any time of their choosing. The following link is to our YouTube channel. It contains basic instructional/ enrichment videos (from theater to music to art) created by members of our staff.

We recently learned that ALL DYCD programs will NOT operate during the summer. This unfortunately includes our free summer camp provided to students of PS/MS 95. We at MMCC understand this presents a lack of childcare for families should the quarantine end by the start of summer. Please know we, along with every other agencies in the city, are fighting for the city to come up with a better plan for the summer. We have created a survey to help gather information to present to the city regarding the need for childcare our families have for this summer. Please take a moment to fill out this survey.

MMCC remains open each day. Our community center is focused on our food pantry services, and we are currently feeding over 500 people each week. If you know of anyone who needs food or mental health referrals have them reach out to us at (718) 882-4000.

Please do not hesitate to reach out to me with any questions or concerns and most importantly, stay safe.
